

Structure

Information Architecture

Will be a simple four structure page.

Interaction Design

- Site logo will bring the user back to the main index.
- The selected menu option will have a different white showing that the option have been selected
- Menu option will be a PDF file and it will open in a new window to keep the user in the same page and to make it easier to the user to see the menu and to book a table / delivery.
- The delivery option will be in a form format.
